

# Potential Questions to Ask Your Doctor

## Hematopoietic Stem Cell Transplant

Do I need to undergo a stem cell transplant?

---

Why do I need a stem cell transplant?

---

Will I be undergoing an autologous stem cell transplant (donating my own stem cells for use in transplant)?

---

## Autologous Stem Cell Transplant

When will I undergo a stem cell transplant?

---

How should I prepare for a stem cell transplant?

---

What specific instructions should I follow during a stem cell transplant?

---

What side effects can I expect from a stem cell transplant?

---

## Stem Cell Mobilization

What kind of stem cell mobilization regimen will I be undergoing?

---

How should I prepare for stem cell mobilization?

---

What specific instructions should I follow during my mobilization regimen?

---

What side effects can I expect from my mobilization regimen?

---

## Stem Cell Collection

When will my stem cells be collected?

---

How should I prepare for stem cell collection?

---

What specific instructions should I follow during stem cell collection?

---

What side effects can I expect from stem cell collection?

---

## Engraftment and Recovery

How long will it take for my infused stem cells to mature and produce healthy new blood cells (engraftment)?

---

What do I need to do to protect my health until engraftment occurs?

---

How will I feel after engraftment occurs?

---
